

Third: Educational activities programs:

African Education Institution:

- Passing of the project of the Holy Qur'an recitation in which the student can recite the whole Qur'an during the basic education period without affecting the student's academic education. This project was applied in the private education schools and one of the public education school. It was decided to start the project with short sura's in the pre-school education.
- A guide for student activities was prepared and distributed to all public and private schools.
- Honoring festivals were made for Holy Qur'an recitation competitions for private and public, as well as pre-scholar education.
- Establishment of concluding days and cultural festivals, and celebration with the silver Jubilee of the African Council of private education, and honoring of leaders.
- Participation in national programs, schools rounds and scientific competitions of UC Mass.
- Formation of school societies and teams of scouts and instructors, at public and private schools.
- Mobilization of summer programs and establishment of concluding days of private and public education schools.
- 18 Qur'an teachers were appointed to teach the first course in the private education schools.

Fourth: Expansion in high education:-

African Education Institution:-

- The institution supervises Kuara College in Nigeria (Including 239 students).
It contains Women development centre, (22) students and a department of special Education diploma, (48) students. This college is supervised by Bayairo Academia University.
- The institution works to promote the Teachers Training Institute in Malawi to become a college.
- Participation in the International University of Sudan. The shares are going to be 500 shares.
- There are arrangements to open a University College for female students, A meeting in this regards was held with some experts in this field.
