

## Part Two:

It includes a detailed report prepared by the executive bodies (institutions, directorates... etc).

The report encompasses detailed information about the programs and activities executed by IDO during the mentioned period, as compared with the strategic plan approved by the (BOD) in its meeting No. 21.

The report aims to show members detailed information about the organization's work during the said duration and to provide documented reference to the researchers and concerned people. This part contains the main components of the plan, the executive work themes, including the activities of the higher leadership of the organization, the meetings of different organs of IDO, the issues of da'wa, training, social, health and media activities, the efforts exerted to provide the necessary finance of the plant and the administrative and financial performance of IDO.

The executive work themes and the strategic goals of each theme were shown in this part. The part also uses tables to shows the operational objectives, the programs, activities and the quantitative requirements of the plan and what has been implemented so far, in addition to the provision of detailed explanation about all the items mentioned in the tables.
